

### MRA Volume III: Changes for Second Reprinting

When counting lines matrices and formulae count as one line and spare lines and footnotes do not count.

'Line  $-n$ ' means  $n$  lines up from the bottom, so 'Line  $-1$ ' means the last line.

<b>Page</b>	<b>Location</b>	<b>Comment</b>
16	Line 4	Change “ are called par yield curves.” To “ would be called par yield curves if their yield to maturity were equal to their coupon, so that the bonds are priced at par.”
